**You give these children hope! Thank you!**

**Your gifts make an incredible difference in rural Ghana.**

Building Solid Foundations works in partnership with Ghanaians to build capacity and self-sufficiency in the areas of clean water, sanitation, health, education, and sustainable economic development.

**The Talking Drums** is published three times per year by Building Solid Foundations.

---

Every effort was made to recognize all gifts to Building Solid Foundations for the period July 1, 2012 - June 30, 2014. Please alert us to any oversights or errors so that we may correct our records and properly recognize you.

---

Remember us in your will.

You can provide medical care and clean drinking water, and create jobs through sustainable economic development programs for years to come by including a gift to Building Solid Foundations in your estate planning. You can obtain more information by calling 717 718-5751 or contacting Hollie Walkley at [hollie@buildingsolidfoundations.org](mailto:hollie@buildingsolidfoundations.org).

*You are invited to embark on a challenging journey.*

**If things are getting easier, maybe you're headed downhill.** Ghanaian Proverb

When you make a gift to BSF -

- Patients at the Apam Hospital Laboratory receive more accurate and speedier diagnoses.
- Little children learn how to wash their hands and why toileting properly is important to good health.
- More pipe is installed to end untreated sewage running in open trenches through the streets and into the sea.
- Mothers learn how to preserve food so that their families have enough to eat during the dry season.
- Sustainable, important jobs are created for men and women in the Apam area.

Your friends in Apam have hope because you have embraced them. They are not afraid of the challenges ahead.

***Your gift is needed now!***

Planning began early in 2013.

**Generous Gift Establishes the Trevor King Memorial Laboratory**

*I can't imagine a more fitting tribute to Trevor's memory.*

**Doris King**

Trevor Noel King died January 10, 2012 following a brave battle with cancer. Born in India, Trevor spent his youth in Ghana before returning to India to attend St. Joseph's Boys School.

After moving permanently to the United States, Trevor met and married his wife Doris and, in 1989, founded Citland International, an Atlanta Georgia-based company that provides equipment and services to the mining industry. Trevor visited his beloved Africa frequently for work.

To honor Trevor's generous heart and spirit, and to continue his efforts to impact the lives of people around the world, Trevor's family— wife Doris and children Michael and Danielle— along with Citland International have contributed \$25,000 to Building Solid Foundations to establish the Trevor King Memorial Laboratory at the Apam Catholic Hospital in Apam, Ghana.

The Trevor King Memorial Laboratory will permit hospital personnel to make quicker, more accurate diagnoses that will save lives. "Installation of new laboratory equipment and training for hospital personnel will begin on September 21, 2014" according to Building Solid Foundations Board Member, Dr. Rich Kurz.

# Thank you donors for the joy you bring to the world!

## Gifts received between July 1, 2012 and June 30, 2014.

### \$25,000 - \$49,999
